The Honorable J. Russell George,  
Fay F. Ropella,

And to the public at large,

I am greatly grieved at the incredible oversight in the transfer of 1/5 of US Uranium-1 to Russian enemies during President Obama's Administration. Uranium-1 being a necessary component for the construction of Nuclear Weapons, this is a matter of national security. How was the purchase, sale, transfer, and regulated documentation of such a valuable, dangerous, and national resource overlooked in such a gross-negligent way?!! With so much supervision both federal and independent, this is an outrage and demands accountability of all administrative and independent investigating personnel to be made to the public!

The Council of the Inspectors General are commissioned to promote Integrity, Accountability and Efficiency in how our government is run and the allegations around this Uranium-1 transaction is riddled with corruption in ALL Branches of our Government including the overseeing-Inspector-General(s)!

Through this Uranium-1 deal alone, the integrity of our Executive branch was corrupted under the administration of both Clinton through to Obama on a mass scale. The integrity of our justice/judicial branch is also corrupt or at the least grossly-inefficient; how is it that there are different standards of justice for politicians vs. us citizens? After all the evidence of Hillary Clinton destroying the WikiLeaks emails, why

was she never arrested? Never prosecuted? If an investigation was done at the time, why is it now... after how many years... that her destruction of those emails are today, in 2017, linked to the uranium-1 deal done during the Obama administration?! Investigating officials at the time and to the present are either grossly-incompetent or deviously conspiring with the Clinton's agenda to destroy our national security.

Reports of the IRS being used to target agencies who wanted to protest the Obama Administration so Obama could get re-elected, and the injustice of "basic constitutional rights" took 3 years to litigate in our court system!? The IRS makes a statement saying sorry. And that's it? Is that the efficiency of our justice? Meanwhile Obama, got re-elected, stacked up his salary, gave 20% of US Uranium-1 to enemy terrorists, and what will be the consequence? Why is he not arrested yet?! His signature is on the Uranium deal!

Reports of FBI stalling investigation... Why? Does not our government have any Affirmative Action Policies? Is the sale and transfer of nuclear-weapon supplies to enemy nations of minor or trivial concern? Is this more in-efficiency in our government and policies? Or more Conspiracy?

This all needs to be investigated in an accountable manner ASAP! Hillary Clinton, Bill Clinton, Obama, and every person who signed off on the Uranium-1 deal are by definition an "Enemy of the State"! All who are covering up or delaying the investigation need to recuse themselves effective immediately or face conspiracy charges! No-one should be delaying the process and have a right later on to plead the 5<sup>th</sup>. ALL Assets of the Clinton Foundation, personal assets of Hillary and Bill Clinton, Obama, Michelle Obama, and everyone who signed off on the Uranium deal need to be frozen for "mitigation of damages" since they used their political power to jeopardize US national security and financial gain!

***Is our nation's justice and accountability so corrupt by Political bureaucracy that we are inept?.. What will be done to fix this?!***

In regards to Public Broadcasting, Federal Communications, General Services, and the Publishing Office; ***the fake news media is in a state of ANARCHY*** with their destroy Trump agenda/campaign! Absolutely NO tax payer dollars should fund persistent inaccurate reports of public facts through mainstream media outlets. Consequences and fines should be imposed on broadcasting networks reporting false information that is publicly accessible. By definition, their fixation, and bias manipulating of the facts is abuse of public trust and a subtle way of trying to overthrow our nation's sovereign (which is treason).
